

MD MASOOM RAZA

JUNIOR DATA ANALYST | DATA SCIENCE INTERN

New Delhi, India | +91 7631568205 | mdmasoom763156@gmail.com

PROFESSIONAL SUMMARY

Entry-level Data Analyst and Data Science professional with a Diploma in Computer Science Engineering (AI & ML) and hands-on experience in data cleaning, exploratory analysis, statistical testing, machine learning, dashboarding, and basic model deployment. Skilled in Python, SQL, Excel, Power BI, and scikit-learn, with a focus on translating data into practical business insights.

TECHNICAL SKILLS

Programming & Data: Python, SQL, pandas, NumPy

Machine Learning: scikit-learn, regression, classification, clustering, model tuning, cross-validation

Analytics & Visualization: MS Excel, Power BI, Matplotlib, Seaborn, statistical analysis

Tools & Deployment: Jupyter Notebook, Git/GitHub, Streamlit, FastAPI, joblib (basic)

PROJECTS

Customer Churn Prediction & Retention Strategy | *Python, scikit-learn, Streamlit, FastAPI*

Built an end-to-end churn solution on 500 customer records, engineered eight features, and tuned a Random Forest with stratified cross-validation. Evaluated precision, recall, F1-score, ROC-AUC, and PR-AUC; saved the trained pipeline and created basic prediction demos with business recommendations.

Customer Segmentation & Churn Prediction | *K-Means, Hierarchical Clustering, DBSCAN, Random Forest*

Compared three clustering approaches and created actionable customer profiles. Trained independent Random Forest churn models for each deployment segment using GridSearchCV and documented targeted retention actions for each customer group.

House Price Prediction | *Python, pandas, scikit-learn, Matplotlib*

Prepared housing data and compared linear, polynomial, decision-tree, and random-forest regression models using train-test splits and cross-validation. Measured MAE, RMSE, and R-squared and visualized actual versus predicted prices.

Motorola Mobile Sales Analysis | *MS Excel, Power BI*

Cleaned and transformed sales data, then built interactive dashboards to track revenue, sales performance, product trends, and regional insights for data-driven decision-making.

EDUCATION

Diploma in Computer Science Engineering (AI & ML) | 2023 - 2026

Galgotias University

STRENGTHS & LANGUAGES

Strengths: Analytical thinking, problem-solving, quick learning, teamwork, time management

Languages: Hindi, English, Indonesian (basic)
